

CARROLL'S CHRONICLE

August-September 2008

1/8/2008

We're on the Web!

www.cws.au.com

We are Carroll's Woodcraft Supplies, run by Jim Carroll and Irene Brook, Our main business hours are Monday— Friday 10am—5pm and Saturday 10am—1pm. We are closed Sundays, Public Holidays and whenever we are at shows and demonstrations. If in doubt give us a call so as not to be disappointed.

We are a one stop shop for Wood turners, Wood carvers, Pyrographers, Scroll sawing and general woodworkers. If we do not have it in stock we can get it for you.

Well here we are over the mid year hump and gearing up for a busy second half of the year.

Still a couple of the shows to go in Canberra, Adelaide and the new place for the Melbourne show at the show grounds.

There is great expectation with this show for everyone as it is a very much unknown venue.

We have finally got our new Pyrography, wood burning machine certified for Australian use so we will be showing that of at the shows. The concept is not new just a different style a bit more heavy duty and at a light weight price.

Have a chat with Irene or if you can make it to the shows or come to the shop try a bit of hands on.

We are also attending the Down Under Turnaround at Phillip Island for the first time in a couple of years as usually the Canberra show clashes with this event so it will be great to go and socialise with old friends and see who's new to the turnaround. Might be a bit busy down there as the Phillip Island 500 Supercars are on the same weekend. I wonder who can make the most noise woodies or supercars.

WEATHER MOVEMENT PROBLEMS

We are all experiencing difficulties in sourcing weather movements. The major supplier Barostar has been liquidated and now everyone is trying to find suitable replacements. There has been a few imports from America but they all seem to have the same problem and that is the need for a 63mm forstner or sawtooth bit. This is a non standard size.

There is no problem if you do your boring on the lathe as you can resize with your chisels but if you are more used to drilling on your drill press than this can cause problems.

We are all looking into other sources but at the moment things are a bit grim. We will keep you updated as we go.

ANTIQUE BOTTLE STOPPERS

We now have a new bottle stopper with an antique style shape. The thread on the end is an 8mm which is larger than the standard one used for the deluxe and 2 ring bottle stoppers.

They are \$4.00 ea 07-256

PEN MILL KIT

The Pen Mill Kit covers nearly all of the pens you would like to do.

It has a 7mm, 8mm, 3/8" & a 10mm stem which fits into the 3/4" mill and secured with the grub screw.

It can be used in your pedestal drill or a cordless drill.

15-248 \$30.00

GLASS EGG TIMERS

Glass egg timers are available in 4 sizes
3-1/2min \$3.40, 5min \$5.70, 30min \$9.80 & 60minute \$15.50

BURNMASTER *EAGLE* WOODBURNER

The Burnmaster *Eagle* is a heavy duty wood burner at a light duty price.

The unit has 2 ports with variable control and 130 watts of power if required.

The leads come with heavy duty Phono plugs which are easier to grip than the RCA style plugs so changing from one pen to another is easier.

The unit is a bare machine with a choice of pens available for different work. The pens are vented to dissipate heat away from your hand.

The unit has an all metal housing with non slip rubber feet and a 2m lead. The power switch is illuminated so it is easy to see if it is on or of. With a flick of the switch you can change from one handpiece to another without waiting too long for it to heat up.

The Burnmaster *Eagle* retails for \$210.00 and the pens are available at \$42.65ea.

“U BEAUT” SECONDS

Still plenty to go, get yours now at \$14.00 per jar or buy a box of 9 for \$113.40
Share a box with your mates

We get a great response from you in regard to having our newsletter emailed. If you have not yet replied please email us with your email address to. carrolls@pipeline.com.au
