Ok so the year is now into full swing.

January has gone already with a flurry of visitors and some very hot days in the mid 40's, something we are not used to. Our only saving grace was the sea breeze of an evening cooling it enough for us to sleep reasonably well.

We have a few new items coming which should be of interest to some people

There is the Wavy Edge sanding discs and soft backing pads.

There is also the Jimmy Clewes DVD's which we will stock the full sets and the individual ones.

We obviously touched a nerve with the safety wear as the orders outstripped supplies. We have more visors coming but still about 2 weeks away, we were completely overwhelmed and grateful that everyone has taken the warning.

The shows are about to start with Shepparton coming up soon so we hope to see a lot of you there.

Bendigo in Easter will be at a new venue at the McGillivray Hall in McCrae Street Bendigo. This is in the main street going through town, just follow the signs.

NEW WAVE SANDING SUPPLIES

Coming very soon will be a range of the New Wave Sanding Pads and sanding discs.

Some of you may have seen these used on a project of sanding a bowl in the last Woodsmith magazine. The pad is attached to your existing power sanding head or rotary sander then the discs are wrapped around the pad so eliminating the hard edges that sometimes effect the finish on some timbers.

The pad is 75mm in diameter and 19mm thick made of lightweight foam making the pad non aggressive and most flexible.

The new wave sanding discs will be available in grits 80, 100, 120, 150, 180, 220, 320, 400, 600 and 800 in packs of 10. Pricing will be confirmed in the next couple of weeks as soon as we receive stock.

We get a great response from you in regard to having our newsletter emailed. If you have not yet replied please email us with your email address to. carrolls@pipeline.com.au
