

# CARROLL'S CHRONICLE

We are Carroll's Woodcraft Supplies, run by Jim Carroll and Irene Brook, Our main business hours are Monday- Friday 10am-5pm and Saturday 10am-1pm. We are closed Sundays, Public Holidays. If in doubt give us a call so as not to be disappointed.

We are a one stop shop for Wood turners, Wood carvers, Pyrographers, Scroll sawing and general woodworkers. If we do not have it in stock we can get it for you.

Welcome back to one and all for a great New Year. We hope your holiday was a safe and happy one. To all those in their sick beds please get well soon as there is too much to do in the shed.

As always with the new year there is lots of new products coming out and price changes as well. We are in the process of upgrading our catalogue and web site to accommodate all of this.

We have had a great response to the Beall Pen Wizards, there is certainly a lot out there that want to do their pens a little different.

What's New, well we have the Tapermate a tool for keeping the tapers in your lathe etc clean. Lidwig Clamps and Claws with some great introductory specials..

A new range of Australian Made Acrylic Pen blanks that have some great colors.

## THINK SAFETY

## TAPER MATE

When dirt, dust and grime build up inside the Morse Taper hole on your lathes' Headstock or Tailstock, your drive centre or other accessories wont seat well causing them to slip and vibrate loose while turning.

The Taper Mate is made of a non-marring polyurethane material with helical ridges that clean out the Morse taper easily and quickly while it is twisted with one hand. On more stubborn jobs like old lathes, a solvent can be used to loosen the build up of grime and grunge

Taper Mate is available in 3 sizes

16-201	1mt @ \$23.00
16-202	2mt @ \$25.00
16-203	3mt @ \$27.00

## LIDWIG CLAMPS

The Lidwig Clamps are the woodworkers Vice Grip Clamps. There are many industries currently using the clamps in various applications. Tradesmen are using the [X7](#) for basic welding, industrial welding, construction and also woodworking. The [X6](#) is used for all the hard to reach jobs. The [X5](#) is used in all arenas from welding to woodworking, craftsmen, furniture manufacturing and the DIY. The [X4](#) is also used by woodworkers, kitchen installers, welders, construction, craftsmen and the DIY.
